

PRECISION

SAWMILL SERIES
LIVE DECK

Weighing nearly four tons, the ruggedly-built Precision Live Deck is engineered and built to give years of trouble-free service with minimum maintenance.

- The stop and loader is operated by a hydraulic cylinder. Runners are 6"x 12"x 1/4" thick tubing.
- Tail sprockets are adjustable for tightening chain.
- To save wear on chains, welded channel runners have metal wear strips. Chain returns inside runners.
- 4' to the top of the chain is standard, longer legs are options.

Specifications given were approved at the time of initial printing and are subject to change without notice and without incurring any liability.

Drive shown is worm gear reducer with electric motor. Optional hydraulic motor and worm gear reducer available.
